Welcome to Quality English and Quality Education

This guide provides you with a very useful overview of the **independent** Quality English schools and Quality Education colleges that we have carefully selected. The guide includes information about the **locations of the schools** as well as **what makes these schools unique**. The **course grids**, towards the end of this publication, offer an easy-to-use guide to the courses each school offers.

Quality English

Quality English (QE) schools are carefully selected from the best independent English language schools in English speaking countries. They are renowned for their quality and reputation, and offer a choice of general and specialised courses in desirable locations around the world. All schools are independently owned and managed. They are not part of a chain and each school has its own unique character.

All QE schools are accredited in their own countries and are regularly monitored by us through visits, student feedback and, in particular, agent references.

We host regular Missions (agent workshops) in key markets for our schools. These workshops allow agents to meet with key decision-makers in a calm environment, highly conducive to building and reinforcing partnerships.

The Quality English logo is a mark of quality for independent English language schools. The logo is a sign of the school's commitment to academic excellence and student support. All schools that carry this logo must meet the same high standards set out, and regularly checked, by Quality English.

Quality Education

Quality Education (QED) colleges are carefully selected from the best independent colleges offering academic and vocational courses which are taught in English. These colleges are all located in English speaking countries and offer exceptional service, unique character and a choice of courses. They are independent and locally accredited.

Courses at QED colleges can include: Art and Design, Film, Drama, Fashion, Business and Executive training, Hospitality and Tourism, as well as academic summer and year-round programmes.

We regularly evaluate and monitor the quality standards of QED course providers. This process includes checking agent references, student feedback, site visits and verification of external accreditations and memberships.

The Quality Education logo is a mark of quality for independent colleges teaching vocational and academic courses to international students in English. All colleges that carry this logo must meet the same high standards set out, and regularly checked, by Quality Education.
